

Mini Bar

The room refrigerator is stocked with drinks and snacks. A price list is usually on the top of the refrigerator. Payment can be made when checking out. Our refrigerators are monitored by a computer which senses when something is taken from its slot. Once you remove something from the refrigerator, the charge is automatically added to your bill. If you accidentally remove something which you would not need, please let the receptionist know you return it to the refrigerator.

Sleeping

Most of our guests sleep on a futon spread out on tatami mats. The futons are prepared by our staff when you are out of the room.

Air-conditioning and Heating System

The room temperature can be adjusted to your comfort by using the control panel on the wall.

切・・・OFF

低・・・LOW

中・・・MIDEUM

高・・・HIGH
